Our Blue Ocean Strategy: Digital As-A-Service

Our Goal: support SMBs in undertaking **digital transformation**, by outsourcing ICT-intensive processes which, otherwise, would require rare and expensive internal employees

A **new** interpretation of 3 traditional industries to support the digital transformation of SMBs (a huge potential market in Italy)

- with «subscription-based» professional services
- supported by software-a-service platforms
- promoted and sold through our community (innovation ecosystem)
